

Take the initiative to help heal your bone

Bone healing discussion guide for you and your doctor

Broken bones are sometimes hard to heal. Only your healthcare provider is qualified to diagnose a nonunion fracture. If you think that your fracture is not healing, answer the questions below and take it with you to your next appointment with your doctor. You and your clinician can begin a discussion regarding the addition of EXOGEN Ultrasound Bone Healing System to your current fracture treatment:

Name: _____ Date of birth: _____ Date fracture occurred: _____

Mark the box that corresponds to your broken bone:

5th metatarsal	Humerus	Scaphoid
Clavicle	Phalanges	Talus
Femur	Radius	Tibia
Fibula	Ribs	Ulna

I have one or more of the following conditions (check all that apply):

☐ Anemia
☐ Diabetes
☐ Nutritional deficiency
☐ Obesity
☐ Osteoporosis
☐ Vascular insufficiency

I have smoked or used tobacco within the last six months:

☐ Yes
 ☐ No

I am currently taking the following medications (check all that apply):

☐ Anticoagulants
☐ Corticosteroids
☐ COX-2 Inhibitors
☐ NSAIDs (aspirin, ibuprofen, naproxen)
☐ Other: _____

Summary of Indications for Use:

EXOGEN is indicated for the non-invasive treatment of osseous defects (excluding vertebra and skull) that includes the treatment of delayed unions, nonunions[†], stress fractures and joint fusion. EXOGEN is also indicated for the acceleration of fresh fracture heal time, repair following osteotomy, repair in bone transport procedures and repair in distraction osteogenesis procedures.

[†]A nonunion is considered to be established when the fracture site shows no visibly progressive signs of healing.

There are no known contraindications for the EXOGEN device. Safety and effectiveness have not been established for individuals lacking skeletal maturity, pregnant or nursing women, patients with cardiac pacemakers, on fractures due to bone cancer, or on patients with poor blood circulation or clotting problems. Some patients may be sensitive to the ultrasound gel.

Full prescribing information can be found in product labeling, at www.exogen.com.
